2½-3″	21.00	17.50	16.00
3-3½″	28.00	23.00	21.00

BROADLEAVED EVERGREENS

These plants are receiving a great deal of interest from the retailer. We handle only those varieties which are the most hardy in Michigan. They can be grown with little extra care in most areas adding acidity to the soil once a year in the form of a commercial mix or by using plenty of peatmoss or leafmold. Avoid windswept locations or poorly drained areas.

The following Broadleaved Evergreens can be found in this catalogue with descriptions:

AZALEAS	ILEX (Holly)
RHODODENDRONS	PIERIS (Andromeda)
EUONYMUS	BUXUS
PYRACANTHA	LEUCOTHOE

Azalea Amoena (a Mollis hybrid), rose purple			
1 gal. can, budded	2.00	1.65	1.50
Azalea Arnoldiana (a Mollis Hybrid), bright pink			
1 gal. can, budded	2.00	1.65	1.50

	1-9 rate	10 rate	100 rate

TAXUS HEDGES

A New Idea in Contemporary Design

- Grows well in shade or sun
- Tolerates city conditions
- Lends itself to modern or traditional design

THE INITIAL COST OF A TAXUS HEDGE IS JUSTIFIED:

1. By less maintenance.
2. By ease of trimming to retain desired size.
3. By outlasting any other type of hedge, thereby increasing in value.

Used in a foundation planting the Taxus hedge is effective and elegant in appearance.
